Course Description:

What are the current hot locations for teens to search on the Internet? This presentation will discuss the most current studies and provide demonstrations of where children are going on mobile devices and what kinds of actions they are taking. This presentation will demonstrate several of the newer applications for mobile devices that are popular for teenagers. Participants will learn about vault applications and the ability to secretly store information. Finally, participants will also be shown the different emerging technological devices and the roles they are playing in potentially manipulating children.

Learning Objectives:

1. Gain insight into the current trends of technology use.
2. Learn about the functionality of the most common social media apps and network.
3. Learn how data aggregation works with social media.
4. Understand what a vault application is and how it may be used by children to hide information.
5. Learn about the newest emerging technology gadgets that children are using.
